

...but they don't walk!

“Without serious effort on the part of Christ followers everywhere, a gut-wrenching 1.7 billion people will actually die without even hearing the name Jesus.”

Tom Elliff, Past President of the International Mission Board

Many of these people remain unreached because:

- They are oral peoples—meaning they do not read or write.
- They live in very remote, physically hard-to-reach locations.

The solution is in our hands.

We have in our hands audio recordings of the Gospel in Spanish, Asheninka, Bongay, Dargnuk and dozens of other obscure languages which these unreached people speak. AudiBibles, solar powered MP3 players, are readily available at reasonable costs. We have teams ready, willing, and able to do whatever it takes to get these AudiBibles to remote, unreached people in Asia, Africa, Central and South America.

You can give them God's Word.

Thanks to partners like you, last year XMA distributed 2,536 Gospel literature packs including AudiBibles, Jesus Film DVDs and/or printed literature. 68 XMA teams are already lined up for this year with more in the works...**but we need your help.**

For only \$40 you can place an AudiBible, Gospel CD or DVD into the hands of someone searching for hope. Could you help us share God's Word with those who are so desperately seeking by sending \$120 for three Gospel literature packs? Or \$400 to reach ten families with the Good News? Or perhaps \$4,000 to blanket a whole remote area with 100 literature packs?

In His Service,

Randy Pierce

P.S. Your \$40 investment will give God's Word to an unreached family. You can share God's Word with three desperately seeking families by sending \$120 for three Gospel literature packs. Perhaps you could send \$400 to reach ten families with the Good News? Or perhaps \$4,000 to blanket a whole remote area with 100 literature packs?
